Prairie Gate IT Services Ticket Review

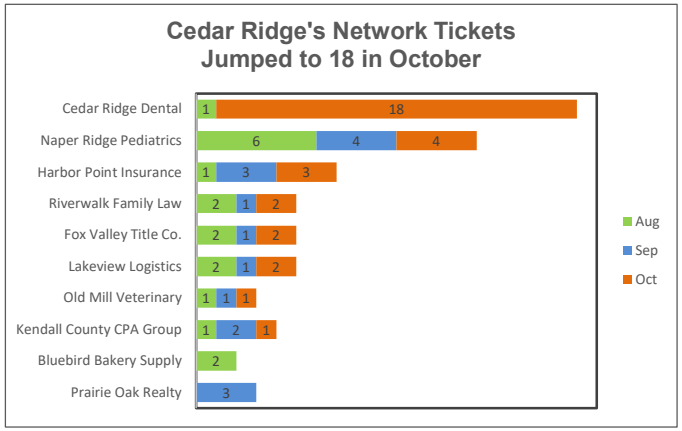

329 tickets, 67 late, and three clients with recurring network problems

as of October 31, 2026

Note: Synthetic data. Prairie Gate IT Services, its clients, technicians and tickets are invented.

Tickets	Category	Top Recurring Client
Total Tickets	**Most Frequent**	**Client**
329	Password / Access	Cedar Ridge Dental
Late Tickets	**% Tickets**	**Category**
67	29%	Network
	% Tech Time	**Tickets (October)**
	7%	18

Recommended Next Steps

1. Fix Cedar Ridge at the source: on-site visit to replace what keeps failing.
2. Recurring-ticket rule: 3+ tickets in one category in a month goes to a senior tech.
3. Review equipment at Naper Ridge and Harbor Point, and loop in sales if an upgrade makes sense.
4. Add self-service password reset: 29% of tickets, only 7% of tech time.
