Recommended Next Steps:

- Move 21 slow-selling overstock lines ($134,707) to print on demand. Stop printing big runs of books that sell fewer than 1,200 copies a year.
- Transfer, don't reprint. 9 titles are overstocked in the US but Low or Out of Stock in the UK.
- Print smaller runs of 3 overstocked cookbooks that still sell steadily (Cast Iron Breads, Slow Sunday Dinners, One Pot Baking).
- Test paperback and ebook editions of the slower cookbooks. Every cookbook is a hardcover, the most expensive format to print.
